Office: (502) 297-8130 Extension: 117

Product Types:

- Multifamily
- Market-Rate
- Affordable
- Historic Rehabilitation
- Senior Assisted Living

Marian is a company devoted to three things: People, Neighborhoods, and Community. This means every project we touch has to impact the lives of those it serves and spark positive change for the community as a whole. That's what sets us apart and gets us up in the morning.

Formed in 2001 by Jacob L. Brown, Marian develops residential, multi-family and commercial real estate with a portfolio that includes multiple locations in the southeastern United States. Through partnerships with nonprofit entities and for-profit investors, Marian produces market rate and commercial projects and develops affordable housing through the utilization of Low-Income Housing Tax Credits.

Marian is a full-service company, having in-house capabilities for design, architecture, construction, project management, and portfolio services. Our Founder and Principal, Jacob L. Brown, is also the owner of WBCS Architecture and Marian Construction, which are headquartered in our office, located just outside of Louisville's Butchertown neighborhood. We regularly work with local governments and community organizations to ensure our projects enhance the quality of life for people while strengthening and revitalizing neighborhoods. We choose projects only after careful deliberation and work to create buildings with attention to craftsmanship and detail, clear communication from concept to completion, and diligent stewardship of every project.

At Marian, we're a team of thinkers, developers, and builders that lives in the communities in which we work. Our mission is to create quality living options for our residents, and we strive to make sure every project we undertake embodies our Core Values: **PURPOSE-DRIVEN, INNOVATIVE, COMPASSION, TEAM-WORK**

Founder & Principal
Jacon L. Brown

Jake founded Marian group. Over his distinguished career, Jake has led over \$400 million of development, management, and construction work. His wide range of expertise includes real estate development; navigating complex LIHTC deals; liaising with federal, state, and local government entities and their funding mechanisms; general contracting and construction management; and environmental consulting and remediation. Jake is a member of: Affordable Housing Association of Indiana, Affordable Housing Tax Credit Coalition, University of Louisville Family Business Center, National Association of Home Builders, Building Industry Association of Greater Louisville, Urban Land Institute, and the CCIM Institute.

Chief Operating Officer
Katie Smith

A graduate of the University of Louisville, Katie has helped grow Marian Group from the ground up. She is the backbone of the company and provides operational structure and support to all Marian Entities.

Developer
Kyle Smith

Kyle joined the Marian Group in 2020 and holds a degree in Business Administration from Bellarmine University. His years of experience include banking and property management. Kyle is the primary Development contact at Marian Group, handling pre-development and underwriting to ensure a successful project and outcome.

Director of Construction
James Arterburn

James holds multiple degrees, and most importantly, has 26 years' experience in the construction industry. He spent the last 24 in management, leading teams and implementing structure and process across multiple disciplines.

Chief Financial Officer
Adam Hobson

Adam is a Certified Public Accountant with over 12 years of real estate development and construction experience. Adam oversees all financial matters for Marian, and has been with the company since 2021.

Development

At Marian, before we take on a new project, we ask ourselves how it will affect three essential elements: People, Neighborhoods, and Community. Since 1997, we have been committed to serving our community by developing and building structures that spark change. Regardless of what we're developing, Marian's development process is rooted in the desire to maximize impact and respond to broader community needs. Affordable housing, affordable assisted living, market rate, commercial, and everything in between, no project is too big or too different. From conception to closing, idea to occupancy, development is what we do and how we give back.

WBCS Architecture

WBCS is an architecture firm founded to integrate design, construction, and development to streamline project delivery and create optimal design solutions for the people, neighborhoods, and communities we serve.

Marian Construction

Marian Construction provides general contracting, construction management, and consulting service to the Real Estate Development Industry among others with a wide array of experience in Multifamily, Residential, Commercial, Healthcare and Industrial construction. We are set apart from the competition due to our vast experience with LIHTC and Part 58 construction, as well as our keen sense of awareness during the project lifecycle. Marian Construction's ability to mobilize and manage a construction project to the highest of standards is the reason for our success.

Portfolio Services

Throughout a project's lifecycle Portfolio Services actively manages an asset to ensure that an owner's investment performs better than their expectations. Before the shovel touches the ground, adequately communicating an owner's vision and needs lays the foundation for a successful experience. During each phase whether that is from pre-development to disposition, the success of a development directly relates to not only maintaining profitability but also building upon a neighborhood's intrinsic values.

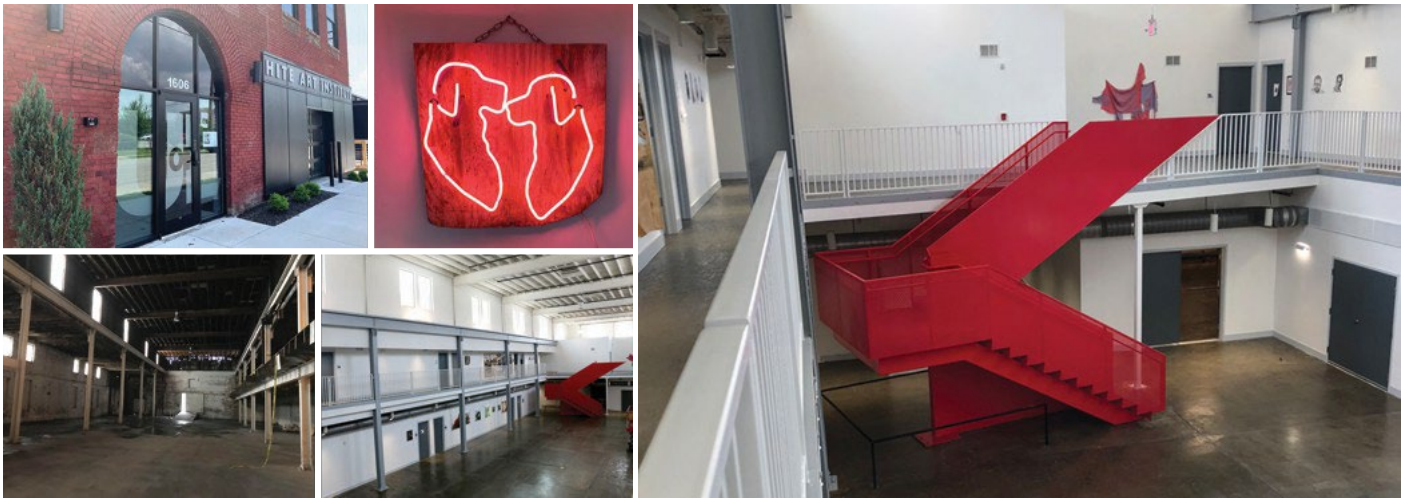

HITE ART INSTITUTE

**LOUISVILLE
KENTUCKY**

**\$5.75 MILLION
INVESTMENT**

**48,000
SQUARE FEET**

When Marian was approached to help the University of Louisville develop a new facility to expand its MFA and Archaeology programs, one thing was certain – creativity would inform every decision we made. Remaining true to our belief in effecting transformative change in underserved communities, a site was selected in West Louisville's Portland neighborhood to help stimulate revitalization efforts already underway. By converting an existing, underutilized property into a cohesive and highly functional space, we delivered the ideal structure to inspire creativity and promote learning.

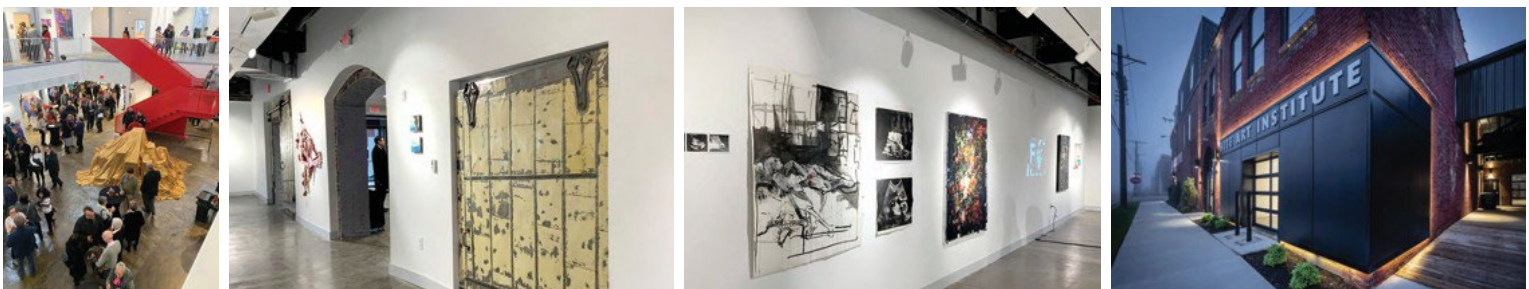

MAKING A POSITIVE IMPACT

Experiential learning is critical to both Fine Arts and Archaeology student development, and the new space provides ample room and the proper environment for “hands-on” training from building large sculptures to cataloging excavation collections. Dr. Kimberly Leonard, Dean of the College of Arts and Sciences, remarked, “After we committed to this space, there were a few people who were skeptical. I’ve brought some of them back again, and they’ve been very excited.”

- EMPHASIS ON THOUGHTFUL ADAPTIVE RE-USE
- STATE-OF-THE-ART STUDIO AND LAB SPACE
- GALLERIES SHOWCASE THE BEST OF OUR LOCAL ARTISTS

THE NEW HITE ART INSTITUTE REFLECTS MARIAN'S COMMITMENT TO PROJECTS THAT SPARK CHANGE AND OUR DESIRE TO CONTINUALLY SEARCH FOR AND CREATE SOMETHING A LITTLE BIT DIFFERENT.

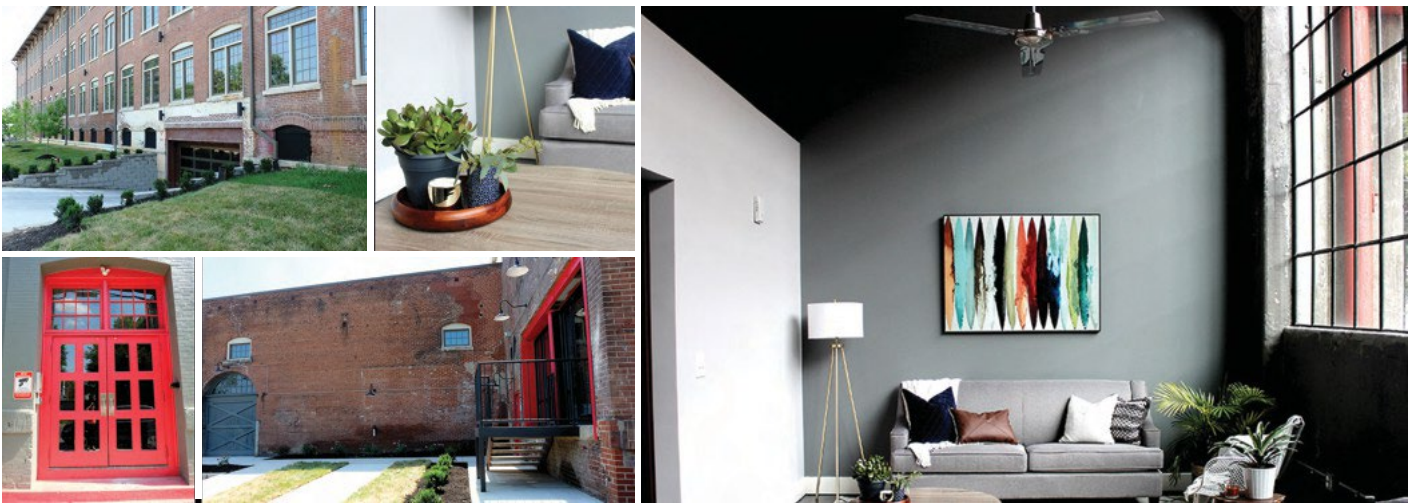

BRADFORD MILLS LOFTS

**LOUISVILLE
KENTUCKY**

**\$18.5 MILLION
INVESTMENT**

**147 MARKET
RATE UNITS**

With a vision to build something remarkable in Louisville's Germantown neighborhood and a couple of abandoned 100-year-old textile mills to speak of, the development of Bradford Mills Lofts required nothing short of an imaginative eye— and truly imaginative financing. Given the condition of the site, the renovations necessary to meet the community's growing population and our unwavering commitment to beautifying neighborhoods seemed unattainable at first. But, through perseverance and our previous experience in securing state historic tax credits, MARIAN FOUND A WAY.

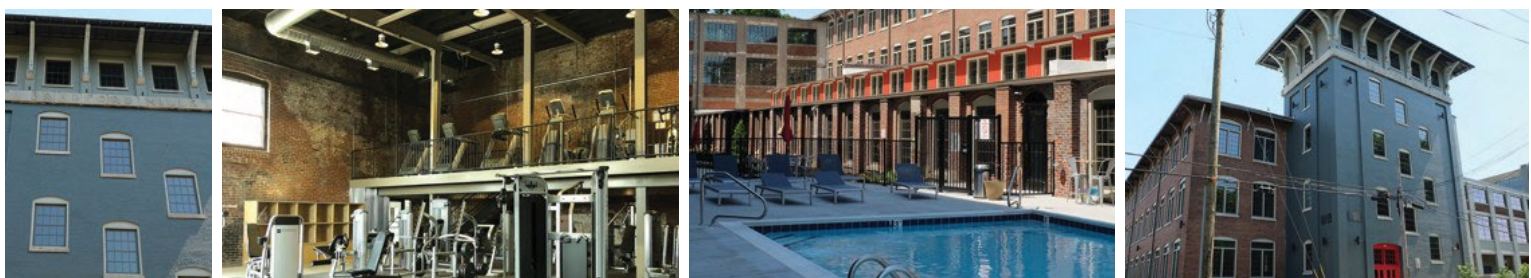

MAKING A POSITIVE IMPACT

Developments like Bradford Mills Lofts have helped reinvigorate the Germantown community while lifting the spirits of the residents who now call Bradford Mills home. The neighborhood has experienced a surge in economic activity including new shops and boutiques, and local homeowners have even experienced a marked increase in property values since the ribbon cutting.

- 147 UPSCALE MARKET RATE UNITS
- AN ON-SITE FITNESS CENTER
- A DOG PARK AND A SWIMMING POOL
- A FACADE THAT LIFTS THE NEIGHBORHOOD'S AESTHETIC APPEAL

BRADFORD MILLS LOFTS EMBODIES WHAT WE LOVE MOST ABOUT OUR WORK – A CHANCE TO EMPLOY OUR SPECIALIZED FINANCING EXPERTISE AND LOVE OF COMMUNITY TO BREATHE NEW LIFE INTO AGING STRUCTURES AND HELP SPUR NEIGHBORHOOD ECONOMIC DEVELOPMENT.

RIVERPORT LANDINGS

**LOUISVILLE
KENTUCKY**

**\$71 MILLION
INVESTMENT**

**24 MONTH
DEVELOPMENT TIME**

A MARIAN GROUP & LDG DEVELOPMENT JOINT VENTURE

RIVERPORT LANDINGS WASN'T YOUR TYPICAL PROJECT. IN FACT, IT WAS LIKE NOTHING WE'D EVER DEVELOPED. To accomplish our vision, we truly had to create an intergenerational community—the first of its kind in Kentucky—serving residents across the demographics spectrum including youth aging out of foster care, young families, and seniors. Essentially, it was comprised of three projects all wrapped into one: Riverport Family Scholar House, Riverport Family, and Riverport Senior.

MAKING A POSITIVE IMPACT

On August 29th, 2018, Marian Development Group & LDG Development, along with our partner on this project, cut the ribbon and officially opened Riverport Landings for 412 new and excited families, seniors, and single parents to start their next chapter. Although many took the stage that day to express words of wisdom, hope and congratulations, the most profound statement came from Family Scholar House participant, Kayln Maddox, who shared how this new opportunity was allowing her to pursue her degree in nursing while simultaneously raising her daughter in a safe and stable environment. "Tears filled my eyes. I could not contain all the emotions the opportunity to live in our own space, to focus on school, and continue to grow as a mother and a student."

CREATING SPACES WHERE STORIES LIKE KAYLN'S CAN BE REALIZED IS WHAT DRIVES US EVERY DAY AT MARIAN. WE LOVED EVERY PAINSTAKING MINUTE OF IT, AND WE'LL FOREVER CHERISH WHAT RESULTED. SO WILL THE RIVERPORT LANDINGS RESIDENTS WHO NOW HAVE A MORE DESIRABLE PLACE TO LIVE.

- 13 RESIDENTIAL BUILDINGS TO SUPPORT A TOTAL OF 412 AFFORDABLE HOUSING UNITS
- AN EDUCATIONAL SERVICES BUILDING
- A CLUBHOUSE, POOL AND PLAYGROUND
- A PARK, COMPLETE WITH FITNESS STATIONS ALONG THE WALKWAY

2018
Housing Innovation Award
WINNER!
